Online weekly report

Georgette's report to Emma

Week of Mon, Oct 26, 2026 · numbers from 2026-10-mtd

NEEDS ACTION A fixed data rule says something here needs a decision.

Summary

Customers are served, but replies slowed to 85 minutes and 6 messages are waiting. One site link is broken and three popular products are low.

Actions for you

Action 1 Answer the 6 waiting messages today

Six customers have waited for a first reply and the oldest has waited 31 hours.

How: Emma works the oldest first; Georgette checks the queue at the end of the day.

Based on: Messages still waiting for a first reply 6

Action 2 Fix the broken link on the site

The weekly crawl found one broken link, and the speed is slow on 4 pages.

How: Find the page that links to it and repoint the link; look at the 4 slow pages next.

Based on: Broken links in the latest crawl 1; Pages slower than the speed bar 4

Action 3 Reorder the 3 popular products that are low

Three products customers view often are at their reorder point.

How: Ask the supplier for dates; hold promotions on those products until they arrive.

Based on: Products at or below their reorder point 3

Reply APPROVE 1, 2 or 3 with the one-time code sent to your phone to approve an action. The program carries nothing out; you do.

Asked of other divisions

To Finance: How much stock does Amazon hold of our best sellers?

No answer. Finance could not answer this week: the stock read was unavailable.

What each worker found

Messages (worth a look)

Replies are slower than last week and 6 messages are still waiting
